Why are students required to complete the SAFE training program?
In support of our efforts to provide an environment that is safe and free of both harassing and discriminatory behavior, Michigan State University requires all students to complete the SAFE program. This program was developed as part of MSU’s efforts to raise student awareness of relationship violence and sexual assault.

What happens if I do not complete the SAFE training program?
Just as you have requirements that you must complete to graduate, students who do not complete SAFE by the stated deadline will not be able to access their grades and other academic information in StuInfo until the SAFE training is completed.

Is the SAFE training program the same as the SARV workshop?
No. The SAFE program is a mandatory online training program that all MSU students are required to complete. SARV is an in-person workshop that all incoming freshmen and transfer students are required to complete.
